

Maine Dispensary Compliance Self-Assessment

8-Domain Operator Self-Audit, 88 Checklist Items, 3 SOP Templates

For licensed Maine adult-use and medical cannabis dispensary operators. The Maine OCP Adult-Use Program (Title 28-B) and Medical Program (Title 22 ch. 558-C) require dispensaries to demonstrate ongoing compliance across eight domains: facility security, Metrc inventory tracking, licensing documentation, employee records, financial reporting, product testing, marketing, and municipal authorization. This self-assessment walks each domain with the primary-source citation for each item. Run monthly for ongoing readiness, quarterly for comprehensive review, and immediately before any OCP auditor visit. Verify current requirements with the OCP auditor reference.

Compliance postures cited here are operator-facing guidance derived from OCP enforcement record and primary sources cited per item. Verify current requirements with OCP and your own counsel before binding your internal SOPs.

Reading guide — how to use this self-assessment

Run cadence:

- **Monthly:** walk the day's checklist items (sweep-style) to catch drift before it compounds.
- **Quarterly:** full review of every domain, with the compliance officer + owner/operator signing each.
- **Pre-audit (30 days before any expected OCP visit):** complete the full assessment with action items resolved in the same session. Audit-day surprises are overwhelmingly items the operator could see but didn't check.

Scoring per item:

- **Pass** — item meets or exceeds OCP requirements as described; documented evidence on file.
- **Fail** — item does not meet requirement; document the gap, the planned remediation, the owner, and the target date in your internal compliance log.
- **N/A** — item does not apply to your license type (medical vs. adult-use); a short justification in the comment column is required.

Scoring across the assessment:

- Total items: 88 across 8 domains
- Pass rate target: 100% — any Fail requires an action item.
- If your dispensary has >5% Fail rate at any quarterly review, escalate to your licensed cannabis attorney before the next OCP touchpoint.

Evidence to keep on file per item:

- OCP application or amendment receipts (for licensing items)
- Metrc screenshots (for inventory items)
- Employee records (for badge/training items)
- Lab COAs (for product testing items)
- Quarterly marketing review (for marketing items)
- Municipal authorization letter + renewal receipts

3 SOP templates (copy + adapt for your business)

These three SOP templates are minimal-viable skeletons. They are not legal advice; consult your licensed cannabis attorney before binding them as your internal SOPs.

SOP-1: Daily Metrc reconciliation workflow

Owner: Inventory manager (or compliance officer for smaller operations). **When:** End of every business day. **Duration:** 15-20 minutes.

- Open Metrc daily reconciliation report (last 24 hours).
- Compare physical inventory (front of house + vault) against Metrc active inventory.
- Note any variance by category (flower, concentrate, edible, etc.).
- Yellow-tier variance: log in variance sheet, schedule 14-day corrective action review.
- Red-tier variance: suspend sales of the affected category; escalate to compliance officer immediately.
- Sign-off: inventory manager + (compliance officer if Red-tier event occurred).
- Daily reconciliation log archived 12 months minimum.

SOP-2: OCP auditor visit protocol

Owner: Compliance officer. **When:** On the day of any scheduled or unscheduled OCP auditor visit.

- Greet the auditor, ask for ID, record the auditor's name + license number on the visitor log.
- Bring the most recent monthly reconciliation report + the variance log + the badge audit + the CCTV retention summary.
- If the auditor requests a random date for daily reconciliation: pull the requested day's log within 60 seconds.
- If the auditor requests CCTV for an event: pull from the cloud archive within 60 seconds.
- If the auditor asks for any item below internal compliance threshold: produce a documented action plan + remediation owner + target date (auditors prefer documented fixes over promises).
- At end of visit: request the auditor sign your audit-book signature line (operator practice).

SOP-3: New-employee badge + training workflow

Owner: Compliance officer. **When:** Day 1 of every new employee.

- Employee application packet (license-required: photo ID, MC record check form, completed OCP application).
- Submit to OCP within 5 business days of start date.
- Employee may NOT handle cannabis until OCP badge issued (typically 14-30 days).
- Schedule the 8-hour responsible-vendor training for day of badge issuance (or before first day on the floor).
- Add to the badge audit log: badge number, issue date, background-check date, responsible-vendor training date, all renewal dates.
- Annual renewal cycle: both background recheck and responsible-vendor training anniversary. Calendar reminders 30 days before.

Scoring summary — fillable

Across all 8 domains, target is 88/88 Pass with N/A documented where applicable. Total Pass rate at any quarterly or pre-audit review is the headline number. Fail rate >5% at any review triggers escalation to your licensed cannabis attorney.

Domain	Items	Pass target	Fail escalation
D-1 Facility security	12	12/12	Any fail: compliance officer + escalation
D-2 Metrc inventory	10	10/10	Yellow: 14-day fix; Red: stop-sale + escalate
D-3 Licensing docs	10	10/10	Any fail: reapply/amend with OCP within 30 days
D-4 Employee records	12	12/12	Any fail: operator-level remediation; HR escalation
D-5 Financial reporting	10	10/10	Any fail: CPA review within 30 days
D-6 Testing + labeling	12	12/12	Any fail: quarantine + COA rework
D-7 Marketing	10	10/10	Any fail: pull creative, replace, document decision
D-8 Municipal	12	12/12	Any fail: contact municipal clerk + lawyer
TOTAL	88	88/88	>5% Fail rate at any review = escalate to attorney

Post-assessment handoff:

- Print and bind a hardcopy of this assessment — keep at the dispensary for OCP auditor visits.
- File a copy in your cloud compliance archive (encrypted, audit-logged access).
- Re-run on the same cadence forever; the only constant in Maine cannabis is change.
- If any Fail-rate trend is worsening over two consecutive quarterly reviews, schedule a half-day with your cannabis attorney before the next OCP touchpoint.
